OHS CONSULTING PTY LTD

BSB41407 Certificate IV in Occupational Health and Safety

The qualification BSB41407 Certificate IV in Occupational Health and Safety is designed for those working as an Occupational Health and Safety Coordinator or Officer. The program is typically completed during working operations and in practical environments.

This qualification is typically completed over a twelve month period. At Benchmark OHS Consulting, we believe the greatest environment for a participant to learn is their own work environment. As such, we provide on-the-job training and assessment for participants. Our trainer/assessors generally work with participants in store to conduct assessment activities and train skills gaps.

Qualification Structure

To achieve the qualification BSB41407 Certificate IV in Occupational Health and Safety, a total of nine (9) units of competency are required to be completed in order to achieve the qualification. Eight (8) of these units are occupational health and safety specific units of competency, with a further elective unit of competency related to other business activity.

The Business Services Training Package includes units of competency that cover such subject matter areas as:

- Occupational Health and Safety
- Customer Service
